

ENVIRONMENTAL RULES

Per.Pic with the purpose of the continuous improvement of its Environmental Management System, wants to inform its employees / visitors / Suppliers about compliance with some simple rules:

- it is forbidden to put some particular type of waste in an inappropriate container;
- it is forbidden to leave waste in unforeseen areas;
- it is forbidden to pour liquid waste in areas not equipped with a containment basin;
- it is forbidden to leave waste containers next to rainwater drains;
- the mixing of different types of waste is prohibited;
- in case of unidentified waste it is recommended not to handle, not to mix with other waste, not to expose to heat / flame, asking RSI for proper disposal procedures.
